### **ABOUT THE SEMINAR**

At present the human civilization has been changing mainly towards materialistic development rapidly. Our country is also gearing up its activities for growth & development. The bright future of a society and a country depends on the rapid development of quality human resources. Again Quality Human resource could not be perfect unless it is accompanied by value education. Presently, value educations are given less importance; due to lack of the value education in our society we have witnessed enormous increase in broken homes, immorality, corruption, rise of militancy, extortions, violation of human rights, communal and ethnic violence as well as threats, large scale of criminalization, dehumanization, exploitation, environmental degradation, wars, conflicts etc.

Value Education is the solution of all types of such problems. With the help of value education and teachings of great man we can solve any kind of above problems in our society. Through value education it is easy to inculcate ethics, peace, harmony among the students and the people. Without value education we can't survive as civilized people and enjoy life in a peaceful manner. So we should give importance in value education.

Again we are happy to inform you that in this year, 2016 we are celebrating Silver Jubilee of our college. In this context Joya Gogoi

College in association with KHSOU Study centre, J.G. College, Khumtai would like to organize a national seminar **on 'Role of value education in inculcating ethics, peace and harmony in our life, society and country'** on 9<sup>th</sup> and 10<sup>th</sup> December/2016 (Friday and Saturday).
